

# Reminders

See your family dentist regularly. It is important to keep your teeth clean and in good condition throughout your orthodontic treatment.

As professionals, we care about your dental health. An oral hygiene appointment will be scheduled for you early in treatment. Special techniques and brushes will be demonstrated and provided to maintain good dental health.

A brushing station is available at all times.

The success of your treatment depends on teamwork and your cooperation in following instructions and adhering to schedules. Patients who accept their responsibility and do their part generally have shorter treatment times.

Expect your child to miss some school. Although we will try to work with your schedule, there is not enough before or after-school appointment time to accommodate every child each time.

Please expect to make a down payment at the records appointment.

## Helpful Tips

Follow brushing and flossing routines.

Call if you run out of elastics, and wear as directed.

Be careful with all appliances.

Wear headgear and other removable appliances as directed.

Be on time for all appointments.

Bring appliances to every appointment.
